Work Experience

JUNIOR DATABASE ADMINISTRATOR Intern
Aptech LTD Andheri (East)

1 December 2023 - 31 December 2023

- MANAGED LIVE SERVERS FOR **RRB EXAM**
- MANAGED REMOTE SERVERS IN **TAMILNADU (CHENNAI, COIMBATORE)**
- MANAGED REMOTE PROCTURING QUERIES FOR **RRB DUBAI ASPIRANTS**

Major Projects

Ankkrypt – Stremio All-in-One Addon — Stremio Addon

- **Description:** Built a full-featured Stremio addon that aggregates movies, TV series, anime, and live TV channels into a single unified experience. Integrated live IPTV channels sourced from *iptv-org* and implemented custom scrapers for movies, series, and anime. Designed the addon to handle Stremio requests efficiently and dynamically serve appropriate streaming links, following standard Stremio addon specifications.
- **Technologies Used:** Node.js, Stremio Addon SDK, Web Scraping, REST APIs, BeamUp

MobDeck.com - Phone Comparison Platform — Web Scraper & Comparison Tool

- **Description:** Developed automated web scraper with **cron jobs** collecting specifications from multiple sources. Deployed on **Cloudflare Workers** with Next.js SSR for optimal SEO and caching performance. Images stored on **R2** for efficient delivery. Integrated AI summaries using Groq and Gemini APIs with responsive comparison UI.
- **Technologies Used:** Next.js, MongoDB, Selenium, Puppeteer, Groq API, Gemini API, Cloudflare Workers, Cloudflare R2, Tailwind CSS.

LocalMart – Local Shopping at Ease — MERN E-commerce Platform

- **Description:** Built a full-stack MERN-based e-commerce platform enabling local shops to sell products online. Implemented features including product browsing, real-time bargaining between buyers and sellers, and order tracking. Developed role-based user and admin dashboards and integrated a scalable cloud database for managing products, users, and orders.
- **Technologies Used:** MongoDB, Express.js, React.js, Node.js, MongoDB Atlas, JWT Authentication, bcrypt, REST APIs

Skills

Frontend: React.js, Next.js, Vue.js, Tailwind CSS, JavaScript

Backend: Node.js, Express.js

Database: MongoDB

AI & Automation: OpenAI API, Groq API, Gemini API, Replicate API

DevOps & Cloud: Cloudflare, Aws, DigitalOcean

Education

Master of Computer Applications (MCA)

- **Thakur Institute of Management Studies, Career Development & Research**
- **Expected Graduation:** 2026

Bachelor of Computer Applications (BCA)

- **Global Education Trust**
- **Overall CGPA:** 8.550
